

E-LEARNING - MICROSOFT TEAMS 365

PRODUCT INFORMATION

Microsoft Teams provides a number of virtual collaboration features to round off Office 365. You can use team channels to chat live with team members. All conversations are saved and can be clearly structured. This allows you to access them later. You can also share files and links and collaborate on Office documents. Microsoft Teams can also be used for scheduling meetings and online meetings.

PARAMETERS

Version	3.5
Duration	3:21 h
