

E-LEARNING - MICROSOFT ONEDRIVE 365

PRODUCT INFORMATION

OneDrive is your personal web storage location, which you can access any time, from anywhere. You can use OneDrive to store files that you want to version or use on multiple devices, for example. You can also share these files with other people and collaborate on them. You are the only one with administrative rights and can control who can see or edit the files. You can use OneDrive online in your browser as well as synchronising it locally, e.g. with your computer.
