

E-LEARNING - WHITEBOARD 365

PRODUCT INFORMATION

Microsoft Whiteboard is the digital alternative to an analogue whiteboard. The app allows you to brainstorm and collect ideas and information collaboratively and simultaneously, making it especially well suited for online meetings. In addition to freehand tools, Microsoft Whiteboard offers a range of functions and ready-made elements for structured collaboration. For example, you can use virtual sticky notes and lists, insert documents and images, or use templates. Microsoft Whiteboard is available both as a Windows app and as a web app (with limited functionality).

Parameters

Version	21-01
